2. RATIONALE:

This MC provides the guidelines and procedures to be undertaken by the Philippine National Police (PNP) in the implementation of the Revitalized PNP KASIMBAYANAN (Kapulisan, Simbahan, at Pamayanan), a community mobilization program highlighting the synergized and collaborative partnership of the PNP with the general public and the religious sector. It is geared towards a holistic transformation that involves the PNP and the community it serves and protects.

3. SITUATION:

Maintaining peace and order is always a shared responsibility between the police and the community. These main actors shall maintain an interdependent and reciprocal relationship. This public safety program will empower citizens to participate at the barangay level to encourage necessary community support in promoting public safety and security by suppressing criminality, local insurgency, and terrorism. Thus, it asserts that community participation is important because each member is responsible for and affected by situations of safety and security.

On December 20, 2020, the Police Regional Office (PRO) 1 under the leadership of then Regional Director, PBGEN RODOLFO S AZURIN, JR. has conceptualized and implemented the KASIMBAYANAN, which aims not only to bring about holistic transformation within the PNP Organization but also to effect change in the communities it serves with the help of the religious sector. Believing that "man by nature is good," this project aims to remind the PNP personnel of their good traits and to share the fact that the people they serve are also intrinsically good. Further, goodness is sustained within the community when people are God-fearing and law-abiding citizens.

Moreso, PRO 1 reinvigorated the Community and Service-Oriented Policing (CSOP) as the core of the Malasakit + Kaayusan + Kapayapaan = Kaunlaran (MKK=K) Framework under the new normal uniting all sectors of the community in an ecumenical call for peace and order anchored in making every Filipino citizen a God-centered individual. This resulted in an initiative dubbed as "KASIMBAYANAN ng Panginoon," a very laudable and timely project that will provide hope to everyone amidst this crisis affecting mankind.

Building trust and respect with the community is fundamental in maintaining the prestige as the Home of the Citizen-Friendly Policeman and Protector of Human Rights. Sound conduct by police improves community interactions, enhances communication, and promotes shared responsibility for addressing crime and disorder.

The full support of the Chiefs of Police (COPs) in this program is necessary to ensure transformation within the PNP organization and in the communities they serve. This program provides an interplay among three important sectors by transforming the PNP members as community-based bridge builders.

The participating religious sectarian and non-sectarian organizations have the responsibility to serve as an important link to their respective members in supporting PNP programs, projects, and activities especially as community advisers.

Therefore, to further enhance and strengthen the program and to get the expected gains of transformation through the involvement of the general public with the valuable support of the religious sector, the *Revitalized PNP KASIMBAYANAN* is introduced for nationwide implementation.

4. PURPOSE:

The PNP, with the support of the religious sector, aims to strengthen its partnership with the general public and bring awareness to the various communities that PNP personnel and the people they serve have a vital role in contributing peace, order, progress, and even holistic transformation of the society. Further, the full support of all unit commanders to this program is necessary so that transformation is ensured within the PNP organization and in the community, they serve and protect.
